

DEPARTMENT OF RACHANA **SHARIRA**

INTRODUCTION:

Department of Rachana Sharir stands as one of the important pillar of basic principles of Ayurveda. It deals with the study of structure of the Human Body and topics like embryology, histology, Anthropometry, Genetics, marma sharir, etc as per Ayurveda and Modern science.

Sharir Rachana department is well equipped with adequate space as per CCIM norms. Student gets both theory and practical knowledge in this subject. Teaching staff is as per CCIM norms. Dissection hall is adequate with two tanks to preserve dead bodies. It is well ventilated. Dissection of human body is done regularly in the Department for the comprehensive knowledge of human body. Dissected organs of all systems are collected and preserved in our museum. Ayurveda and modern books are sufficient in our departmental library. Adequate numbers of modern charts are available.

AIM:

To become a truly basis department to confer upon all the other departments of BAMS & MD (Ayu.) curricula.

OBJECTIVE:

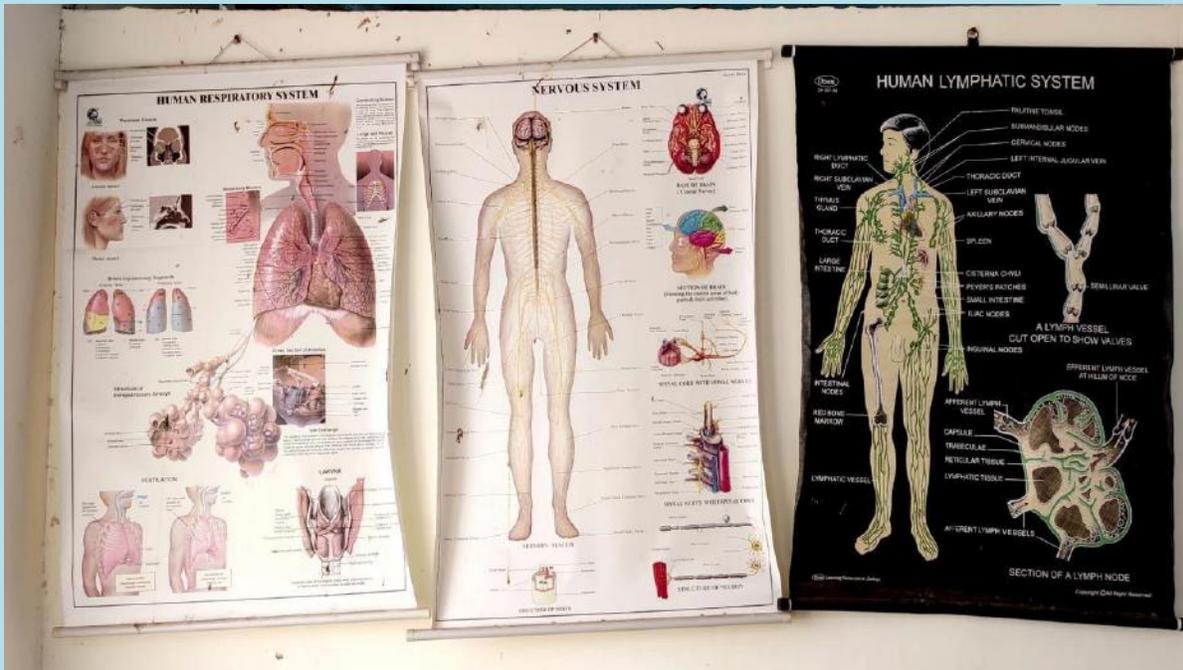

- To train the students by virtue of thorough Human cadaveric dissection.
- To widen their knowledge base by making them acquainted with Clinical and Applied aspects of Ayurvedeeya Sharir.
- To strive for department development through development of Museum and other facilities essential for training the students.

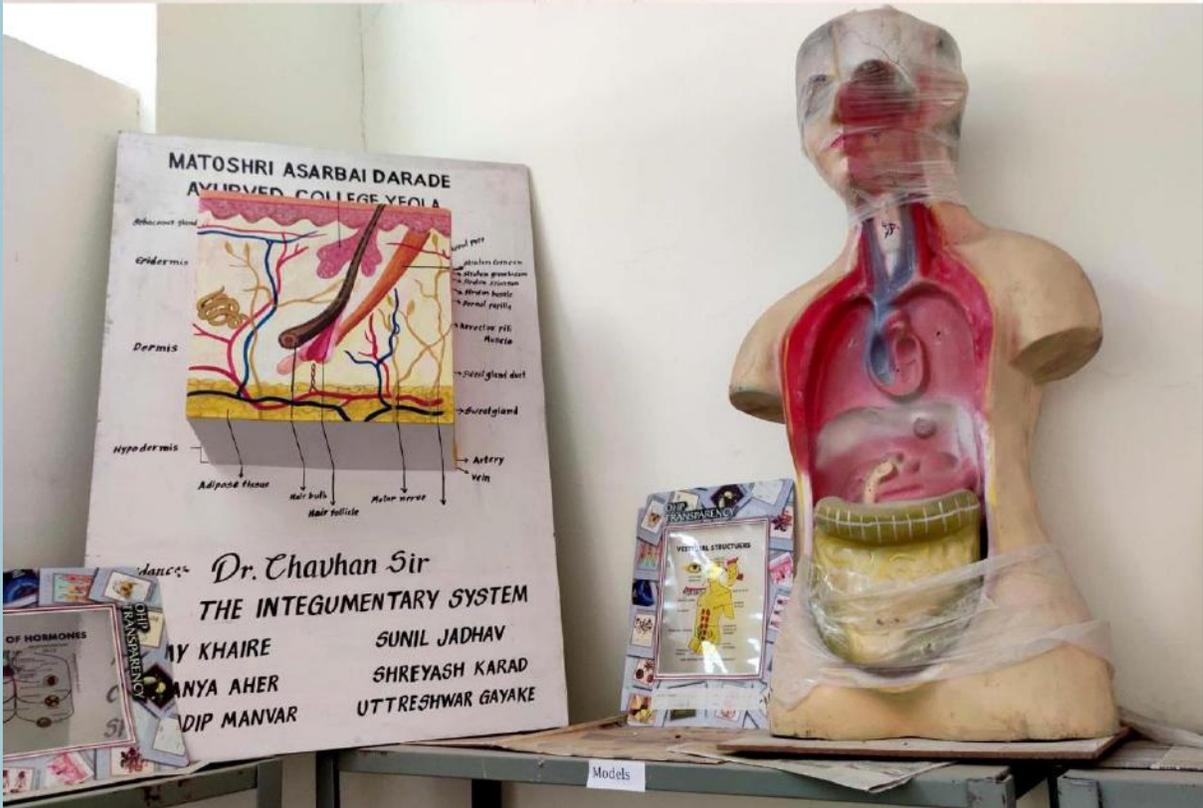

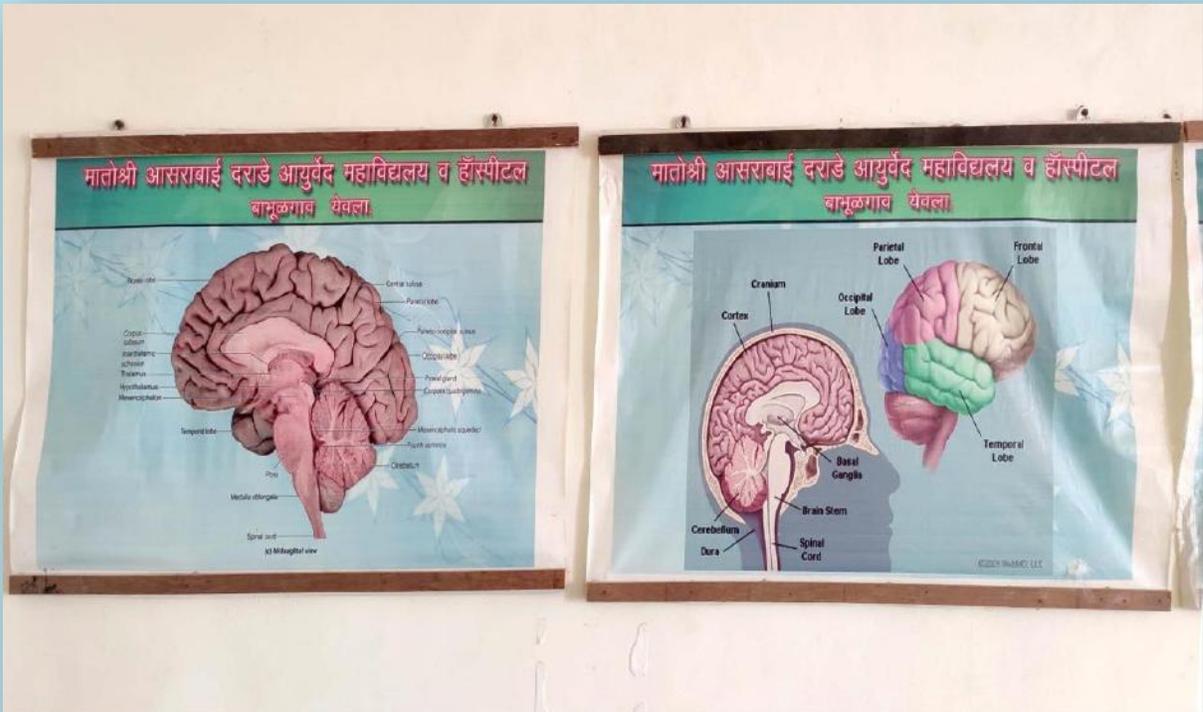

DEPARTMENTAL FEATURES:

- A Team of skilled and dedicated staff.
- Spacious and fully equipped dissection hall for cadaver dissection and specimen preparation.
- Ample supply of cadavers for students.
- Availability of cadaver cutting machine for preparing sectional Anatomy specimens.
- Well maintained Museum containing abundant specimens, Self prepared Models of Marma sharir, Charts for study reference.
- Spacious tutorial Room for practical classes with provision of OHP and Projector facility.
